

Questions &Answers Z1017

Question 1. Bid items 630-2-11, 630-2-12, 630 –2-13 since these items are now trench foot for bidding purpose please provide the number of conduits that are going to be required for these items?

Answer 1. This is an emergency traffic signal repair contract, in conjunction with a natural disaster. No locations have been identified nor can be identified until such an event has occurred. The primary intent of the contract is to provide Emergency Repair (Level I) for a signalized intersection which would normally consist of labor, materials, and equipment necessary to provide one signal head in each direction so as to allow basic stop and go traffic coordination. A Level II repair (Permanent Repair) would most likely be completed under a separate contract. For these pay items and a Level I repair, without designer plans, it is recommended to separate high and low voltage items and follow NEC codes for fill capacities.

Question 2. Bid items 630-2-11, 630-2-12, 630-2-13, 630-2-14 and 630-2-15 please provide the diameter and material type required for each bid item?

Answer 2. See standard specifications book 2014 Section 630 Conduit.

Question 3. Span wire bid items 0634-xxxx please provide us with the size of span that will be required for each one of these bid items?

Answer 3. This is an emergency traffic signal repair contract for us in conjunction of natural disasters. No locations have been identified or can be identified until such an event has occurred. The primary intent of the contract is to provide Emergency Repair (Level I) for a signalized intersection which would normally consist of labor, materials, and equipment necessary to provide one signal head in each direction so as to allow basic stop and go traffic coordination. For emergency repair replace in-kind.

Question 4. Since District 1 is so large and different cities and counties require different items are we to use the standard FDOT requirements for bidding purpose? If not please provide us with all of the counties and cities standards and requirements?

Answer 4. Maintaining Agency preferences will not apply.
